This project is part of the program “Assessment in Action,” Academic Libraries and Student Success” which is undertaken by the Association of College and Research Libraries (ACRL) in partnership with the Association for Institutional Research and the Association of Public and Land-grant Universities. The program, a component of ACRL’s Value of Academic Libraries initiative, is made possible by the Institute of Museum and Library Services.

Project Outcomes:
- Students will employ persistence in their search strategies in order to find relevant resources.
- Students will evaluate sources for quality and relevance in order to use them purposefully in a research assignment.

Key Findings:
- Students who HAD a library workshop showed demonstrable gains in diverse search behaviors.
- Findings on evaluation skills were inconclusive, but students who HAD a library workshop used and felt more confident finding quality sources.

What’s next?
Present findings to campus partners in the Fall, including FYWP faculty and Academic Affairs
